# MALWA GROUP

## ABOUT US

With Blessings Of Almighty **Late Shri Chhaganlal Ji Mittal** started MALWA GROUP in 1971.

We serving in this field from last 50 years and have a crown in our head for its loyal customer base.

Our aim is to provide high class quality tyres and services.

We deals in multi-brands like : Bridgestone, Michelin, Firestone, Falken, Yokohama, Continental, Pirelli, Goodyear, Vredestein, Apollo and many more.

We have milestone of Bridgestone exclusive showroom.

# MISSION

We as MTSS are committed to meet our customer satisfaction through continual improvement in our services & system in all function and level of organization.

# VISION

To be No.1 Tyre Showroom by providing Quality Products & Services to customer.

A circular graphic centered on a light gray background. The graphic consists of a solid red inner circle. Surrounding this red circle is a thick, irregular white border that has a hand-drawn, brush-stroke appearance. Outside this white border is a black ring containing a complex, white geometric pattern of overlapping lines that form a mesh or lattice structure. The overall effect is a stylized, modern logo or button.

**OUR  
SERVICES**

# WHEEL ALIGNMENT

Helps your vehicle drive in a straight line. We will help maximize your tyre life and make handling your vehicle easier.

QUALITY

# WHEEL BALANCING

Ensuring that the tires and wheels spin correctly and without vibration.  
Helping to achieve balancing by checking for any heavy spots on the tyre.

WALTON

# TYRE CHANGE

Chief reason for tyre change is friction with road surfaces. We help you to dismount and mount high quality tyres.

QUALITY

# RIM STRAIGHTENING

This is a minor issue and is caused due to a bent from potholes or curbs. We will help straighten the rims and improve it's life.

WALWA

# NITROGEN GAS

Nitrogen is used to fill tires, since it does offer the advantage of more consistent pressure. Moreover, it is more stable and improves tyre quality.

QUALITY

# RIM SERVICES

Polish & Paint is necessary as it keeps them shiny and polished.  
We provide polish and surface coating according to your rims.

WALWA

# ALLOY STRAIGHTENING

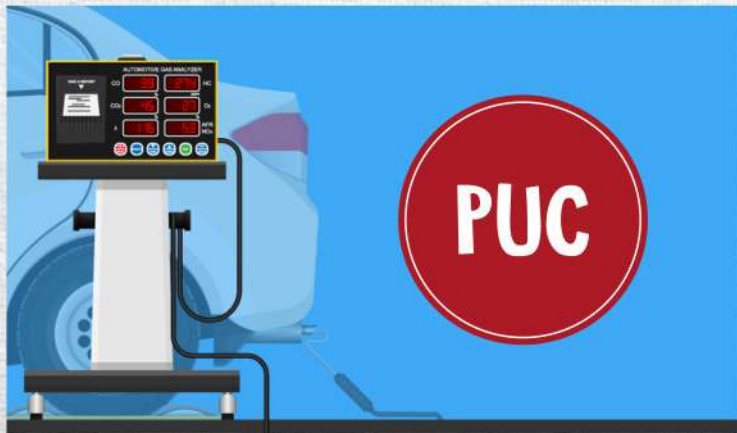

Alloys getting bent is a serious problem, so to fix that issue, come straight to us and get it fixed right there.

WALWA

# POLLUTION UNDER CONTROL (P.U.C.)

Corrosion, chips, cracks, and curb damage can all happen; alloy wheel refurbishment is the solution, and can solve common as well as unsightly problems.

Authorized  
Government  
PUC Centre  
For All Vehicles.

# CUT REPAIR MACHINE

Major Cuts On Side Wall Of The Tyre Can Treated Through This Machine.
